

FRIGIDAIRE GALLERY.

FGIC3066TB

Frigidaire Gallery 30"
Induction Cooktop

AVAILABLE COLORS

SIGNATURE FEATURES

Amazingly Fast

Get amazingly fast heat with induction that boils water 50% faster than an electric cooktop¹.

Safe Surface

The Safe Surface - Induction only heats pans and the food in them, the area around the pans stays cool to the touch.

Easy To Clean

Don't stress over spills with induction's easy-to-clean surface that generates heat only to your pan, not your cooktop, meaning spills can't burn onto the surface.

Even Heat

Whip up delicious meals with induction that delivers incredibly even heat across the surface of the pan so you get golden results every time.

PRODUCT DIMENSIONS

Height	2-7/8"
Width	30-5/8"
Depth	21-3/8"

MORE EASY-TO-USE FEATURES

Cooktop Timer

Use the built-in timer function to set a specified amount of time you want items to cook.

Cookware Compatibility

Most stainless steel and cast iron cookware is compatible with induction elements. An easy rule of thumb: if a magnet sticks to the bottom of the cookware, it's induction-friendly.

Approved Over Frigidaire® Electric Wall Ovens

Cooktops are approved for installation above any of our Frigidaire or Frigidaire Gallery Single Electric Wall Ovens.

Energy Efficiency

Since induction only heats your cookware and not your kitchen, less energy is lost throughout the cooking process.

Auto Sizing™ Pan Detection

Make fluffy pancakes with ease using Auto Sizing™ Pan Detection that automatically senses the size of your pan to only send heat to whatever small, medium, or large pan you are using.

True Temp Melt & Hold

Get perfectly melted goodness with True Temp Melt & Hold that delivers low, precise heat for melting delicate ingredients or sauces without scorching or burning for up to one hour.
